

BAT60 Evaluation Steps

Step	Action	Description
1	<p>Initial detection of failure mode when BAT60 is not charging:</p> <p>a) The “A” button will show Green. b) The display will show “CHARGED” c) The battery will show a less than 100% charge.</p>	
<p>Note: Normal function for both the battery and the Beltpack when the battery is charging correctly:</p>		<ul style="list-style-type: none"> ✓ “A” button will be Red. ✓ Display will read “CHARGING”
		

BAT60 Evaluation Steps

Step	Action	Description
2	<p>Knowing the charge of the BAT60 is less than full charge; to confirm battery malfunction remove the battery from the Beltpack, and place it directly on the AC60 Charger.</p> <p>If the indicator <u>immediately</u> turns Green, this confirms a battery failure.</p>	
3	<p>If the charger indicator turns Red, the battery is functioning correctly and further evaluation of the Beltpack should be performed.</p>
